EDUCATION

Reva University

B.Tech in Computer Science and Engineering, Secured an aggregate of 9.36 CGPA

Bengaluru, India

2019 - 2023

WORK EXPERIENCE

Techolution

Full-stack Developer Intern

August 2023 - Present

Hyderabad, India

- Worked on the projects like **DIGITAL TWIN, BI-GPT, SALES ENTERPRISE** etc.
- Developed user interface and APIs for unveiling the working of deep learning models developed.

PROJECTS

VisualForge: SaaS AI- Powered Platform | Typescript, Next.js, Cloudinary AI, mongoDB [Project Link](#)

- VisualForge is an Image Modification Application
- Features: Object Removal, Background Removal, Image dimension change, Restore actual image etc

SQL-injection attacks | Information Security

[Project Link](#)

- Detecting of SQL injection attacks on a website.
- It involves testing the vulnerability of exposed information using machine learning techniques.

Product Classification using Deep Learning | Python, CNN, Keras, pandas

[Project Link](#)

- Build a Deep Learning Classification model using Convolutional Neural Network to predict similarity of the design between product of different class. The job was to determine whether the product design is based on the user preference.

ACHIEVEMENTS

- 550+ problems solved in Leetcode.
- 3.5 rating in Leetcode
- Research Paper Published in IT Journals

CERTIFICATIONS

- Microsoft Azure Fundamental AZ-900 [View Certificate](#)
- Google Analytics for Beginners [View Certificate](#)
- IBM Certified NodeJS [View Certificate](#)

SKILLS

- Java, Python, Data Structures, Algorithms, Problem Solving
- Javascript, Typescript, Next.js, React, Redux, NodeJS, HTML/CSS, Django, mongoDB, MySQL, PostgreSQL.
- Numpy, Pandas, Git, Docker, AWS
